## Charges Under Unfriendly White

The great silence about the likely role of CIA in the intelligence activities and disturbances in Thailand and Laos doesn't prove that the U.S. is "lily white."

Neither does the "Red Pressure on Nehru," as interpreted here by opinion makers, prove what even liberals know in India.

Who supplies Pakistan, an unfriendly neighbor, with arms, almost \$80 million worth a year? Who but the U.S.A.?

Is that the only way the United States can maintain employment for its workers by alienating the friendship that might have been ours from almost 400 million inhabitants of India?

Chicago.
